MISSION

With [Customer First, Quality Always] mindset, Luntai Enterprise Co., Ltd. is to become the most reliable partner for our customers by providing excellent products and service at competitive prices.

We believe continuous innovation, consistent quality, honest communication and trustworthy service are the keys to meet and exceed customers' expectations.

精雕細琢 一絲不苟

The Best Of The Best

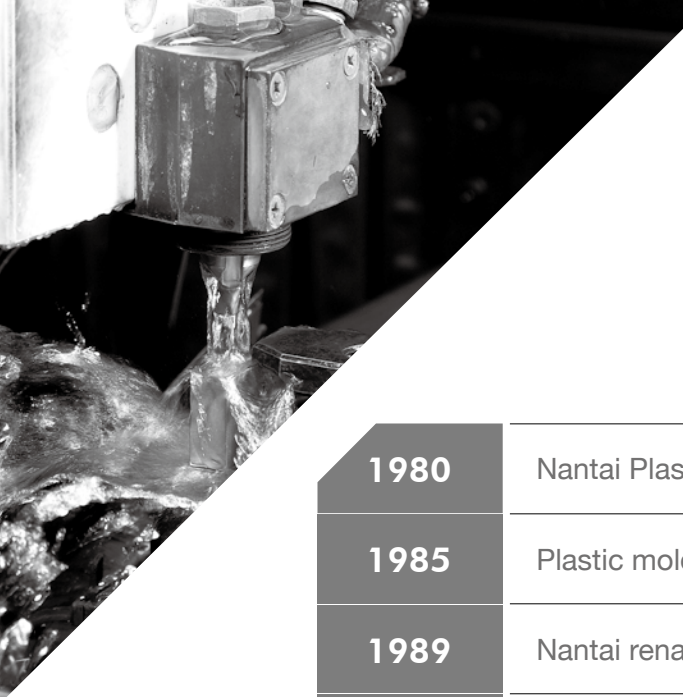

One Stop Service & Solution

COMPANY INTRO

Luntai Enterprise Co., Ltd., founded in 1980, is one of the most experienced companies in plastic injection molding and tooling industry in Taiwan. We specialize in design, manufacturing, and repair of plastic injection molds, as well as engineering changes and spare tooling parts. Over the past decades, we've served a wide range of customers all over the world. With fully equipped precision machineries facility, top-notch and experienced professionals, and reliable quality control, we provide our customers short lead-time, high quality products, excellent customer service and on time delivery at competitive prices.

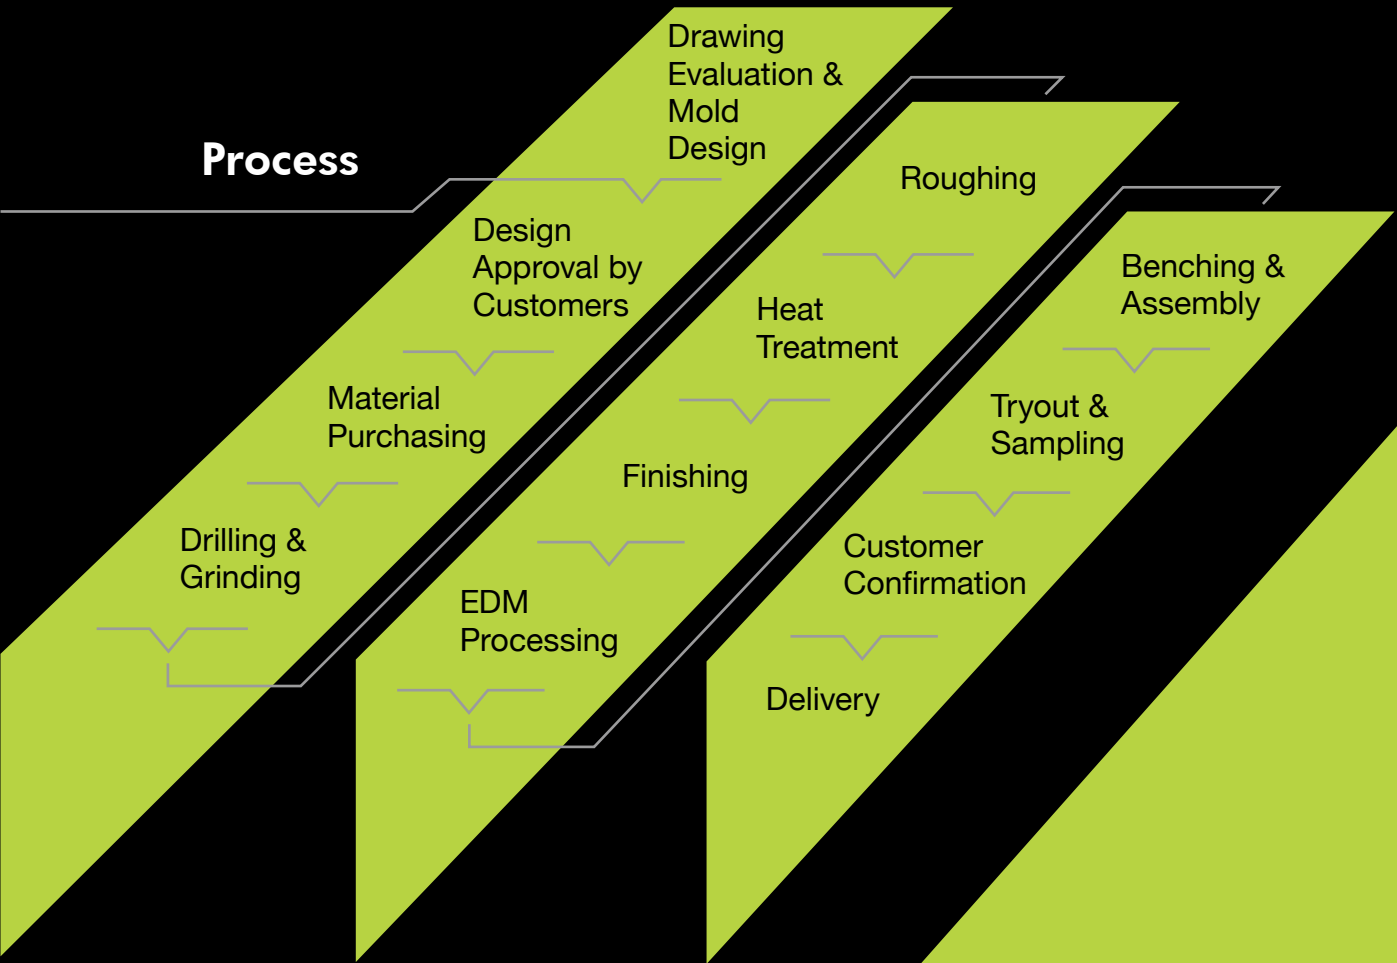

To best serve our customers, we strive to continuously improve in all aspects. With strong belief in quality and can-do attitude customer service, we believe Luntai is a very valuable asset to your company.

HISTORY

1980	Nantai Plastics was founded.
1985	Plastic molding tooling firm established within.
1989	Nantai renamed as Luntai Enterprise.
1993	Awarded with YAMAHA VA/AV the Project of Excellence.
1995	Awarded with YAMAHA the Best Assessment of Scores and The Best Supplier.
1996	Establish the CAD/CAM division.
1998	Acquired factory space of 2,150 Squire Meters for expansion of plastic molding tooling facility.
2004	Established Feng Yuan Mold Factory.
2005	Acquired 2 units of large high-speed CNC Milling Machine.
2006	Acquired Mold-Flow software, 2 units of Milling Machines and a Mold Rotator.
2007	Acquired TOLTEC micro- measuring machine, NC high-speed tool machine, and TESA dimensional measuring machine each.
2010	Acquired High Speed Double Colum Machine Center and 300 Tons Spotting Machine.
2014	Large High Speed Double Colum Machine Center Aquired. (Working range 3000*2000mm)
2018	Recertified ISO 9001: 2015. Acquired a 3D printer.

Process

MANUFACTURE PROCESS

To ensure on-time delivery, and product quality and precision, we strictly comply a set of SOP. We discuss and communicate with customers based on these procedures to maximize our service performance and to meet customers’ needs.

EQUIPMENT

Facility List:

CNC Machine

EDM Machine

Universal Milling Machine

Wire-Cutting Machine

Mold Rotator

300T Die Spotting Press

Lathe Machine

Grinding Machine

Radial Drilling Machine

FULLY
EQUIPPED
FACILITY

Wire-Cutting Machine

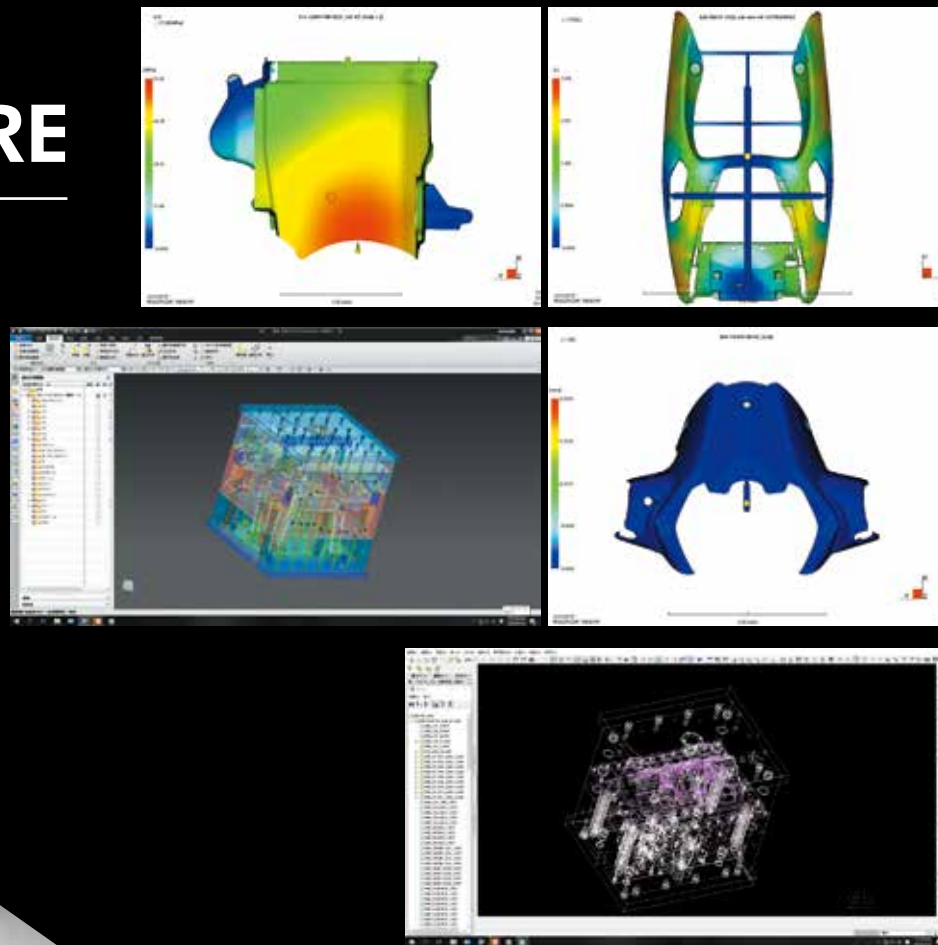

High-Speed CNC Milling Machine

High Speed Double Column
Machine Center

DESIGN SOFTWARE

**CIMATRON
EUVLID
Pro/E EMX
AUTOCAD
MOLDFLOW MPI**

QUALITY MANAGEMENT

To attain [Quality Always], we take pride in quality control. Every step of the way, we carefully work according to the strictest international quality and production standards. To ensure our goal of manufacturing the highest quality product, our Quality Control Department is fully equipped with a large CMM machine, a desktop automated CMM machine, and a variety of measurement tools for better and absolute quality inspect and control.

PRODUCT

Luntai believes [Customer First, Quality Always]. To satisfy our customers, we only deliver high quality and reliable products with strictest standards.

Scooter Parts

Headlight Components

Gas Assist Injection Molding Parts

Agricultural Machinery Parts

Scooter Parts

Robotic Arm Parts

With the purpose of only providing highest quality and best service to our customers, we carefully select our suppliers and partners to ensure we deliver the most reliable quality and products.
